Condensed Interim Consolidated Financial Statements

For the Three and Nine Months Ended

April 30, 2016

Unaudited

Presented in Canadian Dollars

June 28, 2016

MANAGEMENT'S RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The accompanying condensed interim consolidated financial statements of Nighthawk Gold Corp. (“**Nighthawk**”) are the responsibility of the Board of Directors and executive management. The unaudited condensed interim consolidated financial statements have been prepared by management, on behalf of the Board of Directors, in accordance with International Financial Reporting Standards (“**IFRS**”) as issued by the International Accounting Standards Board. These unaudited condensed interim consolidated financial statements do not include all of the disclosures required for annual consolidated financial statements and therefore should be read in conjunction with Nighthawk’s audited annual consolidated financial statements and notes thereto for the year ended July 31, 2015. These unaudited condensed interim consolidated financial statements follow the same significant accounting policies and methods of application as those included in Nighthawk’s most recent audited annual consolidated financial statements, except as described in note 3. Management acknowledges responsibility for the preparation and presentation of the consolidated financial statements, including responsibility for significant accounting judgments and estimates and the choice of accounting principles and methods that are appropriate to Nighthawk's circumstances. In the opinion of management, the unaudited condensed interim consolidated financial statements have been prepared within acceptable limits of materiality and are in accordance with International Accounting Standard 34, Interim Financial Reporting using accounting policies consistent with IFRS appropriate in the circumstances.

Management has established processes, which are in place to provide it sufficient knowledge to support management representations that it has exercised reasonable diligence that (i) the unaudited condensed interim consolidated financial statements do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of, and for the periods presented by, the unaudited condensed interim consolidated financial statements and (ii) the unaudited condensed interim consolidated financial statements fairly present in all material respects the financial condition, results of operations and cash flows of Nighthawk, as of the date of and for the period presented by the unaudited condensed interim consolidated financial statements.

The Board of Directors is responsible for reviewing and approving the consolidated financial statements and for ensuring that management fulfills its financial reporting responsibilities. An Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the internal controls over the financial reporting process, the consolidated financial statements and the auditors’ report. The Audit Committee also reviews Nighthawk's Management’s Discussion and Analysis to ensure that the financial information reported therein is consistent with the information presented in the consolidated financial statements. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the consolidated financial statements for issuance to the shareholders.

Management recognizes its responsibility for conducting Nighthawk's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

1. NATURE OF OPERATIONS

Nighthawk Gold Corp. ("**Nighthawk**" or the "**Company**") was incorporated on January 8, 2004 under the Business Corporations Act (Ontario) and is a publicly listed Canadian junior resource company with exploration and evaluation assets in Canada. Nighthawk is engaged in the identification, acquisition, exploration and evaluation of gold properties, is listed on the TSX Venture Exchange ("**TSXV**"), and trades under the symbol NHK. To date, Nighthawk has not earned any revenue from operations. The Company's registered office is located at Suite 301, 141 Adelaide Street West, Toronto, Ontario, Canada, M5H 3L5.

The unaudited condensed interim consolidated financial statements for the nine months ended April 30, 2016 have been approved for issue by the Board of Directors on June 28, 2016.

During the nine months ended April 30, 2016, Nighthawk incurred a loss of $1,699,041 (April 30, 2015 - $990,402) and as at that date, Nighthawk had accumulated a deficit of $10,429,848 (July 31, 2015 - $8,730,807), working capital of $320,444 (July 31, 2015 - $1,888,962) and cash flows from operations of $(353,841) (April 30, 2015 - negative cash flows of $1,455,925).

These unaudited condensed interim consolidated financial statements have been prepared on a going concern basis, which assumes continuity of operations and realization of assets and settlement of liabilities in the normal course of business for the foreseeable future, which is at least, but not limited to, one year from April 30, 2016. However, Nighthawk is in the exploration stage and is subject to risks and challenges similar to companies in a comparable stage. These risks include, but are not limited to, the challenges of securing adequate capital in view of exploration, development and operational risks inherent in the mining industry; changes in government policies and regulations; the ability to obtain the necessary environmental permitting; challenges in future profitable production or, alternatively Nighthawk's ability to dispose of its exploration and evaluation assets on an advantageous basis; as well as global economic, precious and base metal price volatility; all of which are uncertain. As a result of these risks, there is no assurance that Nighthawk's funding initiatives will continue to be successful and these consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and statement of financial position classifications that would be necessary were the going concern assumption inappropriate. Changes in future conditions could require material writedowns of the carrying value of exploration and evaluation assets.

These unaudited condensed interim consolidated financial statements do not include all of the disclosures required for annual financial statements and therefore should be read in conjunction with Nighthawk's audited annual consolidated financial statements and notes thereto for the year ended July 31, 2015. These unaudited condensed interim consolidated financial statements follow the same significant accounting policies and methods of application as those included in Nighthawk's most recent audited annual consolidated financial statements.

2. BASIS OF PRESENTATION

These unaudited condensed interim consolidated financial statements have been prepared in accordance with IAS 34 - Interim Financial Reporting on the basis of International Financial Reporting Standards ("**IFRS**") and interpretations as approved by the International Accounting Standards Board ("**IASB**") and are presented in Canadian dollars.

These unaudited condensed interim consolidated financial statements have been prepared on a going concern basis, under the historical cost convention, except fair value through profit and loss assets which are carried at fair value, and have been prepared using the accrual basis of accounting except for cash flow information.

The unaudited condensed interim consolidated statement of cash flows shows the changes in cash arising during the year from operating activities, investing activities and financing activities.

2. BASIS OF PRESENTATION (continued)

The cash flows from operating activities are determined by using the indirect method. Net loss is therefore adjusted by non-cash items, such as deferred tax expenses (recoveries), stock-based compensation, write-down of exploration and evaluation assets, flow-through share premium, accretion expense, as well as changes from amounts receivable, prepaid expenses and supplies, and accounts payable and accrued liabilities. In addition, all income and expenses from cash transactions that are attributable to investing or financing activities are eliminated. The cash flows from investing and financing activities are determined by using the direct method.

3. SIGNIFICANT ACCOUNTING POLICIES

The financial framework and accounting policies applied in the preparation of these unaudited condensed interim consolidated financial statements are consistent with those as disclosed in its most recently completed audited annual consolidated financial statements for the year ended July 31, 2015.

(a) Changes in Accounting Policies

The Company did not adopt any new accounting policies during the nine months ended April 30, 2016.

(b) Recent Accounting Pronouncements

Certain pronouncements were issued by the IASB are mandatory for accounting periods after April 30, 2016 or later periods. Many are not applicable or do not have a significant impact to Nighthawk and have been excluded from the discussion below. The following have not yet been adopted and are being evaluated to determine their impact on Nighthawk.

(i) IFRS 9, *Financial Instruments*, ("**IFRS 9**") was issued by the IASB in October 2010 and will replace IAS 39, *Financial Instruments: Recognition and Measurement* ("**IAS 39**"). IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward unchanged to IFRS 9. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. IFRS 9 is effective for annual periods beginning on or after January 1, 2018. Nighthawk will evaluate the impact of adopting IFRS 9 on its consolidated financial statements, including the possibility of early adoption in future periods.

(ii) IFRS 15, issued in May 2014, will specify how and when entities recognize, measure, and disclose revenue. The standard will supersede all current standards dealing with revenue recognition, including IAS 11 Construction Contracts, IAS 18 Revenue, IFRIC 13 Customer Loyalty Programmes, IFRIC 15 Agreements for the Construction of Real Estate, IFRIC 18 Transfers of Assets from Customers, and SIC 31 Revenue – Barter Transactions Involving Advertising Services. IFRS 15 is effective for annual periods beginning on or after January 1, 2018.

4. CRITICAL ACCOUNTING ESTIMATES AND SIGNIFICANT JUDGEMENTS

The preparation of these unaudited condensed interim consolidated financial statements requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual outcomes could differ from these estimates. These unaudited condensed interim consolidated financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the consolidated financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant assumptions about the future and other sources of estimation and judgemental uncertainty that management has made at the consolidated statement of financial position reporting date, that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

(i) Nighthawk assesses the carrying value of exploration and evaluation assets at each reporting period to determine whether any indication of impairment exists. When an impairment exists, the calculation of recoverable amount requires the use of estimates and assumptions such as long-term commodity prices, discount rates, recoverable metals, and operating performance;

(ii) the calculation of the fair value of warrants, broker warrants and stock options issued by Nighthawk requires the use of estimates of inputs in the Black-Scholes option pricing valuation model;

(iii) in connection with the issuance of the Secured Notes, holders received 3,400,000 Secured Note Warrants as additional consideration. Nighthawk has allocated the total principal received between the debt and equity components based on the residual method. The carrying value of the equity instrument was valued as the principal less the fair value of the debt element. The calculation of the fair value of the debt element required management to estimate a grant date discount rate derived from reviewing comparable entities with outstanding convertible debentures and estimating the effective interest rate assuming no conversion feature;

(iv) the calculation of the reclamation liability and provision for service obligation, being the present value of the estimated costs to restore the properties is discounted at rates which reflect current market assessments and the risks specific to the liability. The calculation requires management to estimate the total restoration costs, timing of remediation and an appropriate discount rate; and

(v) valuation of deferred income taxes.

5. RESTRICTED CASH

During the year ended July 31, 2011, Nighthawk posted two irrevocable standby letters of credit with a Canadian chartered bank in the amount of $401,000 (collectively, the "**Permit LOC's**") to provide security under its land use permit and water access licence for the existing reclamation work associated with the Damoti Reclamation Obligation *(notes 6 and 9)* as well as with its exploration activities relating to the Indin Lake Gold Property in the Northwest Territories, Canada. In March 2012, Nighthawk posted additional security of $78,000 (the "**Additional Security**") upon receiving approval on its updated land use permit, which was submitted to support its expanded exploration activities on its Indin Lake Gold Property. The updated land use permit is valid until February 2017 and the water access licence is valid until February 2019. The Permit LOC's are secured by guaranteed investment certificates (the "**Permit GIC's**") at a Canadian chartered bank for the same amount. The Permit GIC's and the Additional Security may be recovered by Nighthawk at expiration of the land use permit and water access licence in absence of any environmental disturbances provided Nighthawk carries out activities to satisfy the Damoti Reclamation Obligation.

Presented in Canadian Dollars

5. RESTRICTED CASH (continued)

On January 26, 2012, under the terms of its agreement to acquire 100% ownership of the mineral claims and leases of the former producing Colomac Gold Mine (the "**Colomac Gold Project**") *(note 6)*, Nighthawk entered into three letters of credit totaling $5,000,000 at a Canadian chartered bank in favour of Aboriginal Affairs and Northern Development Canada ("**AANDC**") to secure Nighthawk's service obligation to perform reclamation services on three other sites as follows: $3,000,000 for the Diversified site, $1,000,000 for the Spider Lake site and $1,000,000 for the Chalco Lake site (collectively, the "**Colomac LOC's**") *(note 8)*. The Colomac LOC's are secured by guaranteed investment certificates (the "**Colomac GIC's**") at a Canadian chartered bank for the same amounts. Upon completion of the service obligation with respect to each reclamation site to the satisfaction of an independent third party engineer, the Colomac LOC's with respect to each site will be released and the hold restriction on the related Colomac GIC will be eliminated. At any time, the Company may terminate the liability relating to this service obligation, but as a consequence would relinquish the related Colomac GIC still held as security against the Colomac LOC's at that time.

In Fiscal 2013, the reclamation activities at the Chalco Lake site were completed and the approval of the third party engineer was obtained. As a result, the Colomac LOC with respect to the Chalco Lake site was released and the hold restriction on $1,000,000 was eliminated at that time *(note 8)*.

	Permit security	Colomac GIC's	**Total restricted cash**
Balance - July 31, 2015 and April 30, 2016	**$ 479,000**	**$ 4,000,000**	**$ 4,479,000**

6. EXPLORATION AND EVALUATION ASSETS

Mineral Property	Option & acquisition costs	Exploration	Balance July 31, 2015	**Option & acquisition costs**	**Exploration**	**Balance April 30, 2016**
Indin Lake Gold Property	$ 10,551,501	$ 27,203,593	$ 37,755,094	$ 10,121,523	$ 27,912,097	**$ 38,033,620**

Mineral Property	**Indin Lake Gold Property**
Balance - July 31, 2015	$ 37,755,094
Acquisition costs	120,022
Exploration expenditures	1,607,783
Write-down of exploration and evaluation assets	(1,449,279)
Balance - April 30, 2016	**$ 38,033,620**

(a) Exploration expenditures for the nine months ended April 30, 2016 includes $19,169 (nine months ended April 30, 2015 - $225,035) of capitalized stock-based compensation.

6. EXPLORATION AND EVALUATION ASSETS (continued)

Indin Lake Gold Property

In August 2008, Nighthawk acquired 6 mining leases and 6 mining claims (the "**Damoti Lake Property**") which lie within Nighthawk's Indin Lake Gold Property in the Indin Lake Greenstone Belt located approximately 200 kilometres north of Yellowknife, Northwest Territories. The Damoti Lake Property is subject to an existing 2% net smelter return royalty. Upon acquisition, a reclamation obligation existed at the Damoti Lake Property (the "**Damoti Reclamation Obligation**"). At the time of acquisition, the estimated cost of the Damoti Reclamation Obligation could not be reliably measured. Nighthawk has since carried out environmental assessments using a third party specialist and has estimated the cost of the Damoti Reclamation Obligation to be $401,150 *(note 9)*. Nighthawk has capitalized the Damoti Reclamation Obligation, and related assessment costs, as acquisition costs related to the Damoti Lake Property as the liability was assumed at acquisition. During the nine months ended April 30, 2016, Nighthawk incurred $86,822 (nine months ended April 30, 2015 - $64,231) of assessment costs which have been capitalized as acquisition costs.

Under agreements dated January 7, 2011, and as amended on April 4, 2013, Nighthawk acquired a 100% interest in 15 mining leases and 3 mining claims (the "**Indin Lake Properties**") within the Indin Lake Greenstone Belt, subject to existing net smelter royalties on certain claims ranging from 2% to 5%, by making payments of cash and shares totalling $725,000.

In January and April 2011, Nighthawk staked 107 additional mining claims in the Northwest Territories which link the Indin Lake Properties and the Damoti Lake Property, thereby consolidating much of the Indin Lake Gold Property's ground.

In January 2012, Nighthawk completed an agreement to acquire 100% ownership of the mineral claims and leases of the Colomac Gold Project, located within the Indin Lake Greenstone Belt and contiguous to and surrounded by Nighthawk's existing Indin Lake Gold Property in the Northwest Territories, from AANDC. As consideration for the Colomac Gold Project, Nighthawk committed to perform reclamation services on three other sites within the Indin Lake Gold Property land package which are the responsibility of AANDC: the Diversified, Chalco Lake, and Spider Lake sites. The obligation for the reclamation services is to be carried out on behalf of AANDC to a maximum of $5,000,000. See note 8 for further details on the provision for service obligation remaining at April 30, 2016. The Company did not assume the reclamation liabilities of these three sites and is not responsible for any historical environmental liabilities associated with the Colomac Gold Project. At any time, the Company may terminate the liability relating to this service obligation, but as a consequence would relinquish the related Colomac GIC still held as security against the Colomac LOC's at that time.

Under an agreement dated December 18, 2013 and subsequently terminated on December 29, 2015, Nighthawk was granted an option to acquire a 100% interest in 4 contiguous mining leases adjacent to Nighthawk's existing Indin Lake Gold Property, known as the Kim and Cass mining leases. To exercise this option, Nighthawk was required to make payments totalling $1,550,000 in tranches as follows:

- Upon execution of the agreement: $125,000 in cash (paid);
- Upon execution of the agreement: $125,000 (paid through the issuance of 353,669 common shares);
- On or before December 31, 2014: $300,000 (settled by payment of $150,000 in cash and the issuance of 462,392 common shares valued at $138,718. The number of common shares issued was calculated based on the 30-day volume weighted average share price as of December 5, 2014 ($0.324); the fair value of the common shares issued was calculated based on the closing common share price on December 5, 2014 ($0.30), resulting in a gain on settlement of mineral property option payment of $11,282);
- On or before December 31, 2015: $450,000; and
- On or before December 31, 2016: $550,000.

Presented in Canadian Dollars

6. EXPLORATION AND EVALUATION ASSETS (continued)

On December 29, 2015, Nighthawk terminated the option on the Kim and Cass mining leases. As a result, the payments due on December 31, 2015 and 2016 were not made. The capitalized costs associated with these leases of $1,449,279 were written off during the period.

7. SECURED NOTES

Total liability component at issuance of Secured Notes	**773,155**
Equity component allocated to Secured Note Warrants (by deduction)	**33,117**
Net proceeds of Secured Notes	**$ 806,272**

	Liability component
Balance - July 31, 2015	$ -
Liability component at issuance of Secured Notes	773,155
Accretion	62,472
Balance - April 30, 2016	**$ 835,627**

On November 20, 2015, Nighthawk completed a non-brokered private placement offering of secured notes (the "**Secured Notes**") for a principal amount of $850,000. The Secured Notes pay interest at a rate of 12% per annum, compounded monthly, payable in cash semi-annually, and are secured by a general security agreement on the real and personal property of Nighthawk. Nighthawk can prepay the Secured Notes without penalty, provided that any interest owed to the date of prepayment is also paid to the Secured Note holders. In connection with the issuance of the Secured Notes, the Secured Note holders were issued 3,400,000 warrants (the "**Secured Note Warrants**"). Each Secured Note Warrant entitled the holder to acquire one common share at an exercise price of $0.15 per share until May 20, 2017 (note 10(b)).

The Secured Notes are classified as a liability, with the exception of the portion relating to the Secured Note Warrants, resulting in the carrying value of the Secured Notes being less than its face value. The discount is being accreted over the term of the Secured Notes, utilizing the effective interest rate method at an interest rate of 18.8% and using a 15% discount rate. Transaction costs of $43,728 associated with the Secured Notes were prorated between the debt ($41,932) and equity components ($1,796). Those allocated to the debt portion of the Secured Notes are deferred and accreted over the term of the Secured Notes. An amount of $62,472 in interest and accretion was recorded on the statement of comprehensive loss for the nine months ended April 30, 2016 (nine months ended April 30, 2015 - $nil).

8. PROVISION FOR SERVICE OBLIGATION

As consideration for the Colomac Gold Project *(note 6)*, Nighthawk agreed to perform reclamation services on three other sites within the Indin Lake Gold Property land package which are the responsibility of AANDC: Diversified, Chalco Lake, and Spider Lake. The obligation for the reclamation services is to be carried out on behalf of AANDC to a maximum of $5,000,000. Upon closing, Nighthawk entered into the Colomac LOC's totaling $5,000,000 in favour of AANDC to secure Nighthawk's obligation to perform the services for each site. The Colomac LOC's are secured by the Colomac GIC's at a Canadian chartered bank for the same amounts *(note 5)*. Nighthawk did not assume the reclamation liabilities of these three sites. Upon completion of the service obligation with respect to each site to the satisfaction of an independent third party engineer, the Colomac LOC's with respect to each site will be released and the hold restriction on the related Colomac GIC will be eliminated. At any time, the Company may terminate the liability relating to this service obligation, but as a consequence would relinquish the related Colomac GIC still held as security against the Colomac LOC’s at that time. In March 2013, the reclamation activities at the Chalco Lake site were completed upon approvals of the third party engineer.

	Service obligation
Balance - July 31, 2015 and April 30, 2016	**$ 3,012,314**

9. RECLAMATION PROVISION

Upon acquisition of the Damoti Lake Property *(note 6)*, the Damoti Reclamation Obligation existed at the Damoti Lake Property. At the time of acquisition, the estimated cost of the Damoti Reclamation Obligation could not be reliably measured. Nighthawk has since carried out environmental assessments using a third party specialist and estimated the cost of the Damoti Reclamation Obligation to be $401,150. Nighthawk posted the Permit GIC's, to secure the Permit LOC's, and remitted the Additional Security for an amount of $479,000 *(note 5)* to provide security under its land use permit and water access licence for the Damoti Reclamation Obligation as well as for exploration activities relating to the Indin Lake Gold Property.

	Amount
Balance - July 31, 2015 and April 30, 2016	**$ 401,150**

10. SHARE CAPITAL

(a) Common Shares

Authorized Capital - Unlimited common shares

Issued

(b) Warrants

	Number of warrants	Number of broker warrants	Allocated value
Balance - July 31, 2015	10,000,000	1,200,000	$ 1,496,523
Secured Note Warrants *(note 7)*	3,400,000	-	33,117
Expiry of warrants and broker warrants	(10,000,000)	(1,200,000)	(1,496,523)
Balance - April 30, 2016	**3,400,000**	**-**	**$ 33,117**

A summary of Nighthawk's outstanding warrants (including broker warrants) at April 30, 2016 is presented below:

Issue date	Number of warrants	Exercise price	Expiry date
Secured Note Warrants	3,400,000	$0.15	May 20, 2017

Option pricing models require the use of highly subjective estimates and assumptions including the expected stock price volatility. Volatility is based on the historical volatility of Nighthawk. Changes in the underlying assumptions can materially affect the fair value estimates.

Brokers warrants issued to non-employees have been valued using the fair value of the equity instruments granted in the absence of a reliable estimate of the fair value of the goods or services rendered.

(c) Contributed Surplus

Share-based Payment Reserve

Balance - July 31, 2015	$ 7,649,204
Stock-based compensation	67,387
Expiry of warrants and broker warrants	1,496,523
Balance - April 30, 2016	**$ 9,213,114**

Stock Options

Nighthawk has a stock option plan under which stock options may be granted to Nighthawk's directors, senior officers, employees, consultants and consultant companies. The stock option plan: (i) provides that the number of common shares reserved for issuance, within a one year period, to any one optionee, shall not exceed 5% of the outstanding common shares; (ii) provides the maximum number of common shares reserved for issuance pursuant to options granted to insiders may not exceed 10%; (iii) and contains other provisions to ensure the stock option plan is compliant with stock exchange regulations. The options granted vest immediately or as otherwise determined by Nighthawk's Board of Directors.

10. SHARE CAPITAL (continued)

(c) Contributed Surplus (continued)

	Number of options		Weighted average exercise price
Balance - July 31, 2015	4,746,000	$	0.42
Granted	2,285,000		0.15
Expired	(1,402,000)		0.41
Balance - April 30, 2016	**5,629,000**	**$**	**0.32**

During the nine months ended April 30, 2016 and 2015, the following stock options, which vested immediately, were issued and valued using the Black-Scholes option pricing model parameters listed below (in each case with no dividends and a nil forfeiture rate):

				Black-Scholes option pricing parameters			
Expiry date	Number of options	Exercise price	Grant date stock price	Risk-free interest rate	Expected life (years)	Volatility factor	Fair value
Nine months ended April 30, 2016							
December 1, 2020	2,285,000	$0.15	$0.045	0.80%	5.0	113%	$0.03
Nine months ended April 30, 2015							
December 17, 2019	3,150,000	$0.34	$0.30	1.32%	5.0	113%	$0.24

A summary of Nighthawk's outstanding stock options at April 30, 2016 is presented below:

Issue date	Options outstanding	Options exercisable	Exercise price	Weighted average remaining life (years)
July 15, 2013	680,000	680,000	$0.60	2.2
November 29, 2013	364,000	364,000	$0.50	2.5
December 17, 2014	2,300,000	2,300,000	$0.34	3.6
December 1, 2015	2,285,000	2,285,000	$0.15	4.5
	5,629,000	5,629,000	$0.32	3.6

The weighted average exercise price of the outstanding and exercisable options was $0.32. The weighted average remaining contractual life of outstanding options is 3.6 years.

Option pricing models require the use of highly subjective estimates and assumptions including the expected stock price volatility. Volatility is based on the historical volatility of Nighthawk. Changes in the underlying assumptions can materially affect the fair value estimates.

The options issued to non-employees were valued using the fair value of the equity instrument granted in the absence of a reliable estimate of the fair value of the goods or services received.

Presented in Canadian Dollars

11. NET LOSS PER SHARE

Net loss per share has been calculated using the weighted average number of shares outstanding during the nine months ended April 30, 2016 and 2015.

,	Three months ended April 30, 2016	Three months ended April 30, 2015	Nine months ended April 30, 2016	Nine months ended April 30, 2015
Net loss for the period	$ **(215,100)**	$ (113,221)	$ **(1,699,041)**	$ (990,402)
Basic and fully diluted weighted average number of shares outstanding during the period	**58,453,693**	58,453,693	**58,453,693**	57,991,303
Basic and fully diluted net loss per share	$ **Nil**	$ Nil	$ **(0.03)**	$ (0.02)

Fully diluted weighted average common shares outstanding for the nine months ended April 30, 2016 and 2015 are not reflective of the outstanding stock options, warrants and broker warrants as their exercise would be anti-dilutive in the loss per share calculation.

12. RELATED PARTY DISCLOSURES

(a) Director and Executive Management Compensation

Directors and executive management's compensation for the nine months ended April 30, 2016 and 2015 consisted of the following:

	Three months ended April 30, 2016	Three months ended April 30, 2015	Nine months ended April 30, 2016	Nine months ended April 30, 2015
Cash compensation	$ **57,498**	$ 102,500	$ **397,496**	$ 307,750
Employment benefits	**2,634**	3,567	**7,902**	7,134
Fair value of stock options	**-**	-	**24,330**	319,787
	$ **60,132**	$ 106,067	$ **429,728**	$ 634,671

Directors and executive management received the following stock options during the nine months ended April 30, 2016 and 2015:

				Black-Scholes option pricing parameters			
Expiry date	**Number of options**	**Exercise price**	**Grant date stock price**	**Risk-free interest rate**	**Expected life (years)**	**Volatility factor**	**Fair value**
Nine months ended April 30, 2016							
December 1, 2020	825,000	$0.15	$0.045	0.80%	5.0	113%	$0.03
Nine months ended April 30, 2015							
December 17, 2019	1,350,000	$0.34	$0.30	1.32%	5.0	113%	$0.24

The total fair value of stock options granted to directors and executive management for the nine months ended April 30, 2016 was $24,330 (2015 - $319,787). All of the stock options granted vested immediately on the date of grant and have a contractual life of 5 years from the date of grant.

Presented in Canadian Dollars

12. RELATED PARTY DISCLOSURES (continued)

(a) Director and Executive Management Compensation (continued)

Stock-based compensation of $14,746 to executive management has been capitalized to the exploration and evaluations assets for the nine months ended April 30, 2016 (2015 - $69,564).

(b) Director and Executive Management Transactions

The aggregate value of transactions and outstanding balances relating to entities over which directors and executive management have control or significant influence were as follows:

		Transaction value for the nine months ended April 30,		Balance outstanding as at April 30,	
Transaction	*Note*	**2016**	2015	**2016**	2015
Consulting	*(1)*	**$ 225,000**	$ 135,000	**$ -**	$ -
	(2)	**60,000**	60,000	**-**	-
Geological consulting	*(3)*	**112,500**	112,500	**12,500**	12,500
		$ 397,500	$ 307,500	**$ 12,500**	$ 12,500

(1) During the nine months ended April 30, 2016, Nighthawk paid consulting fees of $225,000 (2015 - $135,000) to Heather Grace & Co., a company controlled by David Wiley, the former Chief Executive Officer of Nighthawk. At April 30, 2016, the balance owed was $nil (July 31, 2015 - $nil).

(2) During the nine months ended April 30, 2016, Nighthawk paid financial consulting fees of $60,000 (2015 - $60,000) to 2245448 Ontario Inc., a company controlled by Michael Leskovec, the Chief Financial Officer of Nighthawk. At April 30, 2016, the balance owed was $nil (July 31, 2015 - $nil).

(3) During the nine months ended April 30, 2016, Nighthawk paid geological consulting fees of $112,500 (2015 - $112,500) to Byron Geological Inc., a company controlled by Dr. Michael Byron, the current Chief Executive Officer and a Director of Nighthawk. At April 30, 2016, the balance owed was $12,500 (July 31, 2015 - $12,500).

13. MANAGEMENT OF CAPITAL RISK

Nighthawk's capital management objective is to obtain adequate levels of funding to support its exploration activities, to obtain corporate and administrative functions necessary to support organizational functioning and obtain sufficient funding to further the identification and development of precious metal deposits. Achieving this objective requires management to consider the underlying nature of exploration activities, availability of capital, the cost of various capital alternatives and other factors.

Nighthawk raises capital, as necessary, to meet its needs and take advantage of perceived opportunities and, therefore, does not have a numeric target for its capital structure. Funds are primarily secured through equity capital raised by way of private placements. There can be no assurance that Nighthawk will be able to continue raising equity capital in this manner.

Establishing and adjusting capital requirements is a continuous management process. Exploration involves a high degree of "discovery" risk and substantial uncertainties about the ultimate ability of Nighthawk to achieve positive cash flows from operations. Consequently, management primarily funds Nighthawk's exploration activities and administrative costs by issuing share capital rather than using other capital sources that require fixed repayments of principal or interest. Nighthawk will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

13. MANAGEMENT OF CAPITAL RISK (continued)

Development activities may begin once a property's mineral reserves are estimated and Nighthawk makes a positive production decision. At this point, management may consider other sources of financing such as senior debt or convertible debentures as a means to reduce equity dilution.

Nighthawk's capital under management at April 30, 2016 includes share capital of $39,255,662 (July 31, 2015 - $39,255,662).

Nighthawk invests all capital that is surplus to its immediate operational needs in short-term, liquid and highly rated financial instruments, such as cash, and short-term guarantee deposits, all held with major Canadian financial institutions.

There were no changes in Nighthawk's approach to capital management during the year ended April 30, 2016 and Nighthawk is not subject to any externally imposed capital requirements other than the restricted cash held as guaranteed investment certificates at a Canadian chartered bank as security for the letters of credit posted with respect to Damoti Reclamation Obligation and the Colomac Security *(note 5)*.

As of April 30, 2016, Nighthawk had no flow-through expenditure obligations remaining from a June 2014 financing.

14. MANAGEMENT OF FINANCIAL AND OTHER RISK

Nighthawk's financial instruments are exposed to financial risks as summarized below:

(a) Fair Value

The carrying amount of cash, amounts receivable, and accounts payable and accrued liabilities represent their fair value due to their short-term nature. The fair value of the restricted cash and secured notes are equal to its carrying value. Fair value represents the amount that would be exchanged in an arm's length transaction between willing parties and is best evidenced by a quoted market price if one exists.

(b) Credit Risk

Nighthawk's credit risk is primarily attributable to cash. Nighthawk has no significant concentration of credit risk arising from operations. Restricted cash consists of guaranteed investment certificates, which secure Nighthawk's two irrevocable standby letters of credit with a Canadian chartered bank *(note 5)* which Nighthawk considers to be a reputable financial institution. Management therefore believes the risk of loss to be remote.

(c) Liquidity Risk

Nighthawk's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at April 30, 2016, Nighthawk had a cash balance of $245,797 (July 31, 2015 - $1,502,002) to settle current liabilities of $156,029 (July 31, 2015 - $131,675). All of Nighthawk's financial trade liabilities have contractual maturities of 30 days or less and are subject to normal trade terms.

(d) Interest Rate Risk

Nighthawk's cash primarily includes highly liquid bank deposits that do not earn interest. Due to the short-term nature of these financial instruments, fluctuations in market rates do not have a significant impact on estimated fair values as of April 30, 2016. The restricted cash and secured notes are not subject to cash flow interest rate risk due to the fixed rate of interest thereon. Future cash flows from interest income on cash will be affected by interest rate fluctuations. Nighthawk manages interest rate risk by maintaining an investment policy for short-term investments. This policy focuses primarily on preservation of capital and liquidity. Nighthawk is exposed to interest rate price risk on fixed interest rate instruments.

14. MANAGEMENT OF FINANCIAL AND OTHER RISK (continued)

(e) Other Risk

Nighthawk is exposed to other risks as follows:

Commodity Price Risk

Nighthawk is exposed to price risk with respect to the commodity price of gold. Future declines in this commodity price may impact the future profitability of Nighthawk and the valuation of its mineral properties. A significant decline in gold prices may affect Nighthawk's ability to obtain capital for the exploration and development of its mineral resource properties.

15. SUBSEQUENT EVENTS

(a) Subsequent to period end on May 27, 2016, Nighthawk acquired Superior Copper Corporation ("**Superior**") (the "**Superior Acquisition**") by way of a three-corned amalgamation involving Superior, Nighthawk and a wholly-owned subsidiary of Nighthawk, whereby Nighthawk acquired all of the issued and outstanding common shares of Superior. The newly amalgamated company, known as Superior Copper Corporation, which holds all of Superior's assets, is a wholly-owned subsidiary of Nighthawk. Nighthawk has a total of 112,739,406 common shares issued and outstanding upon closing of the Amalgamation. Under the terms of the Amalgamation, the former shareholders of Superior received an aggregate of 54,285,713 common shares of Nighthawk, representing approximately 48.2% of the issued and outstanding common common shares of Nighthawk at the time. With the Superior Acquisition, Nighthawk acquired approximately $3.7 million of cash and the exploration and evaluation assets known as the Superior Project.

(b) Subsequent to period end on June 8, 2016, 2,630,000 stock options were issued to directors, officers and consultants of Nighthawk. The stock options had an exercise price of $0.25 and an expiry date of June 8, 2021.

(c) Subsequent to period end on June 13, 2016, the Company announced its proposal to complete a non-brokered private placement consisting of up to 4,444,444 common shares at a price of $0.225 per common share and up to 16,666,667 common shares, which qualify as a "flow-through shares" within the meaning of the Income Tax Act (Canada) ("**FT Shares**") at a price of $0.30 per FT Share for aggregate gross proceeds of up to $6,000,000 (the "**Offering**"). The gross proceeds from the sale of the FT Shares will be used for exploration on the Company's Indin Lake Gold Property. The net proceeds from the sale of the Common Shares will be used for general working capital purposes. The Offering is expected to close June 29, 2016 and remains subject to the approval of the TSX Venture Exchange.
